

# Mastercraft<sup>®</sup>

## HANDLES

We continually expand our handle collection to capture new designs and finishes. We also work hard to ensure our products are easy to navigate, with clear imagery and information. We have continued to make improvements in both areas.

### KEY FEATURES

- Over 500 Handles in 9 handle finishes.
- Collections consisting of 27 finish options.
- 12 handle types, from classic D-Handles to Loop Handles.
- Detailed product information for every handle, including: family name, handle type, code, hole centres, handle length, other size options, price band, and all other available finishes.
- All Handles include fixing screws as standard.

### WHAT'S NEW

We have continued to build new handle families to make it easier for you to design great looking kitchens. Lloyd is a new versatile, contemporary family. Minimal in design, it is available in Matt Black and Brushed Brass finishes.

Dunston is a new family that features the on-trend knurling detail, available in Chrome, Matt Black and Satin Brass finishes.

We have also extended some of our existing handle families to offer even more options. The popular Didsbury family is now available in an additional finish of Aged Brass. The family also now includes the option of being supplied with backplates.

The Yard family has been extended with the introduction of a complementary knob - a key handle type that opens the options for successfully mixing cabinet hardware.

**5** Black Satin Effect p57

# HANDLE APPLICATION

We have identified handles that sit outside of the standard Front Face Mounted application. Look out for the Reverse Mounted and Multi Fixings symbol.

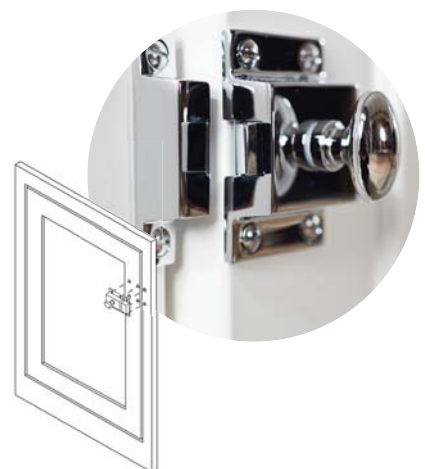

## FRONT FACE MOUNTED

Handle attached to the front of the door/drawer

## RM REVERSE MOUNTED

Handle attached to the back of the door/drawer

## MF MULTI FIXING

Two part handle with latch connection

# HANDLE TYPES

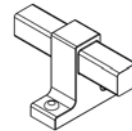

We have 12 different handle types in our collection. The key below clarifies the characteristic of each type. Many handle families contain multiple handle types, allowing you to use a combination throughout a design.

**KNOB**  
Single centrally fixed handle

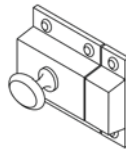

**CUP HANDLE**  
Formed shaped handle to slot hand into

**T-BAR HANDLE**  
Small T shaped handle

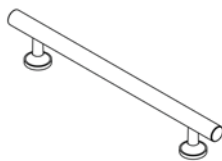

**LOOP HANDLE**  
Small loop to open with fingers

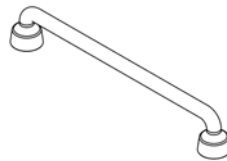

**LATCH HANDLE**  
Similar to a door lock with two parts and a catch

**DROP HANDLE**  
Two fixed sockets with a vertically rotating central handle

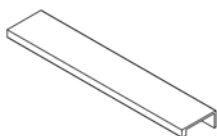

**BAR HANDLE**  
Straight bar style handle with two or more fixing points

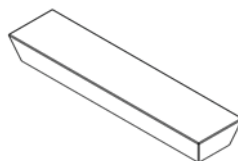

**D-HANDLE**  
D shaped handle with two or more fixing points

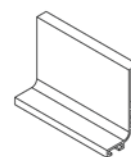

**BOW HANDLE**  
Curved shaped handle with flat ends

**TRIM HANDLE**  
A strip style handle, top/side mounted

**BLOCK HANDLE**  
Simple geometric style handle

**RAIL SYSTEM**  
An integrated rail for a true Handleless kitchen

# STAINLESS STEEL COLLECTION

## HANDLE FAMILIES

Stainless steel handles provide a clean look that allows for ultimate versatility. The neutral colour and finish is a perfect match for most kitchens. The finish also complements stainless steel with appliances and sinks.

# NICKEL COLLECTION

## HANDLE FAMILIES

Nickel's distinctive warm hue sets it apart from other materials. Its warm tint gives it an elegant aesthetic that complements a classic setting. Nickel's sheen also embellishes the detail in many handle designs.

# KNURLED COLLECTION

With a unique tactile design, the Knurled Collection produces a distinct industrial look that complements a modern setting. This range introduces a unique element of personalisation with our range of backplate options.

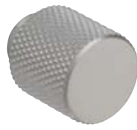

Handle positioning is key to completing any kitchen design – and it really can make or break a look. Our extensive knurled collection offers multiple ways to position handles onto a variety of frontal types. The photos above highlight the diversity of the range and the different styles that can be created.

1. 2 x Knob on offset backplate (K1111.20B384MB) positioned horizontally on slab double door set
2. 1 x Appliance pull (H1126.448.MB) on a tall slab combination door
3. 2 x Knob on offset backplate evenly positioned on a run of wide slab drawer packs (K111.20B384BR)
4. Bar handle on rectangular backplate (H1126.257B386MB) positioned centrally towards the top edge of a 2 drawer pack
5. 2 x Knob on offset backplate (K1111.20B384MB) positioned vertically on slab double door set

# BLACK COLLECTION

## HANDLE FAMILIES

Matt black is the growing finish of the moment. It contrasts perfectly with painted furniture, in both a modern and classic setting. Create contrast or colour match to dark finishes.

# WHITE COLLECTION

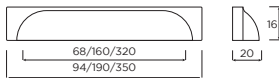

## HANDLE FAMILIES

White is the perfect finish for a clean contemporary look. Matching white handles with a white frontal adds minimalism and simplicity to your design. Adding white handles to a black kitchen can create a refined monochrome setting.
